

What's happening in your community

Hello! Hubs

Your Community Organisers from Brighton Students' Union spent the summer planning Hello! Hubs that took place in October across different places in Brighton. These events were planned together with Sussex Students' Union and they were a success! It was great to see different residents (students and non-students) getting together to chat about their community. You can watch the Hello! Hubs video in Brighton Community Organisers FB Page.

Our team is growing

We have 2 new Community Organisers in our team to support students and residents in Moulsecoomb.

"Hello I'm Hattie and I'm your new Community Organiser in Moulsecoomb Campus. I'm passionate about listening to you and giving you a voice in your campus, but also in your local area"

"Hello I'm Jack, as an ex-resident of Moulsecoomb I'm very excited to be starting to work here. I look forward to meeting as many of you as possible over the coming year"

Saving our pubs

Our team has recently won a grant to work with two groups of residents to keep a couple of pubs in Brighton as part of the local community. The Lectern, near Moulsecoomb Campus and The Cuthbert, at the top of the hill near the Grand Parade Campus. These two projects will be used as case studies by The Company of Community Organisers to evidence the benefits of using Community Rights by/for local people. Happy days!

Become a Volunteer Community Organiser

We are running a Volunteers' programme in February 2016. We will offer you training, an opportunity to gain valuable skills and change the things that matter to you and others through collective power. If you believe in social change, in empowering people and you are solution focused this is the right programme for you :)
