

Open Day Feedback from Environment Group Boards

General Comments re Wildlife/Countryside

- Could the village hall install bat boxes or owl box.
- Thank you Monday Club for the lovely stiles.
- Can we look into protecting our woodlands and meadows. A sort of listing for woods/meadows.
- Protect our green fields and woodland for future generations to enjoy!
- Access onto field (village green) from North End. Could the dip by the gate be widened to fit a push chair?
- We have lost enough wild life. It's time to start preserving what's left.
- Definitely need GREEN buffer zones!
- Please preserve the fields between the village hall and the woods to the South.
- Japanese knot weed in the village (Slugwash).
- We all need green spaces to bring a little peace and calm into our lives!!
- Love the wild flowers. We have a beautiful verge by the South Road crossroads that got mowed last week. Any chance we could manage this ourselves in the summer?
- Please preserve wildflower spaces and woods.

Re Cycle Paths

- There are already cycle paths – they are called bridleways.
- Let children cycle on pavements/cycle paths – especially on Green Rd.
- Why not turn Slugwash Lane into a cycle path except for residents access.
- Great idea! [written on comment above]
- Cycle paths, I back that one.
- Cycle paths would be a useful addition to the village. – the only safe place to cycle is on the green – some sort of access to the school.
- Cycle paths are too artificial – there's plenty of bridleways.
- Want safer areas for children to cycle and skateboard. Cycle paths should be made – esp. to Burgess Hill and H Heath.
- Keep children safe. Cycle paths away from roads.
- Cycle paths/routes thro village and surrounding woods and countryside.

Re Play Areas

- The children have nowhere to play in the Orchards Close area of the Parish.
- There are NO play spaces on west of Wivelsfield.
- Yes! Theobalds. [Relates to need for play areas]
